

ENVIRONMENTAL POLICY STATEMENT

Our Commitment

Newspace are committed to taking a responsible, environmentally sound, and sustainable approach to its activities and reduce its environmental impacts to a practicable minimum.

Our Approach

Newspace ensures that environmental performance is given equal priority with our other business objectives. Environmental objectives are agreed by top management and communicated to all employees. By understanding the needs and expectations of our stakeholders and ensuring that our employees are trained and competent to continuously improve our environmental performance, we aim to actively reduce the negative impact of our activities, whilst creating opportunities to positively impact upon the environment.

Top Management will:

- Operate and maintain an Environmental Management System in accordance with the requirements of BS EN ISO 14001:2015
- Identify its environmental impacts and implement measures to eliminate or reduce them
- Employ Life Cycle Thinking to ensure that environmental issues are properly assessed and considered through all stages of its processes
- Set targets to improve environmental performance and monitor progress against those targets
- Use energy and natural resources efficiently to adhere to the principles of sustainability
- Minimise waste by strictly adhering to the waste hierarchy of Reduce, Reuse, Recycle, Recover, Dispose
- Engage with suppliers, customers, and other stakeholders on environmental issues
- Provide adequate training to its employees appropriate to their environmental responsibilities
- Remain committed to continuously improve its environmental performance through regular reviews and audits and by seeking to identify opportunities for improvement.
